DEPARTMENT OF BANKING AND INSURANCE

# The Commonwealth of Massachusetts

OFFICE OF THE COMMISSIONER OF BANKS,  
STATE HOUSE, BOSTON, January 16, 1924.

To the General Court of Massachusetts:

The annual report of the Commissioner of Banks, required by Section 9, Chapter 167, General Laws, is respectfully submitted herewith. The complete report covering the work of this department and containing statements of the institutions under its supervision and other statistical information will be submitted as heretofore at a later date.

The banking power of Massachusetts is steadily increasing. Assets under the supervision of this department now aggregate \$2,933,225,101.74, an increase of \$110,384,660.25 since the last annual report of the Commissioner. This growth has been general throughout the Commonwealth, not being confined to any one section, and the resultant condition reflects not only the prosperity of our citizens but their confidence in our financial institutions. It is interesting to note that the total banking assets in institutions under state supervision represent two-thirds of the total banking power of the Commonwealth.

<sup>1</sup> Figures of trust companies and national banks as of September 14, 1923; co-operative banks as of the close of their October business.

<sup>2</sup> Decrease.

<sup>3</sup> Assets of those receiving deposits for safe-keeping are shown herewith in so far as they are within the provisions of General Laws, Chapter 169.

<sup>4</sup> Does not include trust department assets the figures for which are not returned to the Comptroller of the Currency.

The total assets of savings banks show an increase of approximately \$129,000,000, the largest in the history of these institutions. When compared to the total assets of 1913, the total increase in the last decade amounts to over \$632,000,000, or 67 per cent, which is an excellent growth and one which should make the Commonwealth justly proud of these institutions.

Co-operative banks continue their remarkable growth, the increase in assets since the last annual report establishing another record in the growth of these institutions. The increase for the last decade is \$183,047,288.68, or 224 per cent, which

is another indication that the public is availing itself of the many advantages offered by these banks. It is easy to measure the gain in dollars and cents but the benefits accruing to the Commonwealth through the operation of banks of this nature can only be estimated. A feature which is worthy of notice is that real estate foreclosed and held in possession of the banks, amounting to only \$45,182.93, is the smallest amount outstanding on this account since 1889, which is remarkable in view of the total amount of real estate loans held which approximates \$250,000,000.

The aggregate assets of trust companies, however, have not shown an increase. What might be misunderstood through the conversion of six trust companies into national banks as a tendency to give up state charters for those under Federal control is explained mainly by reason of consolidations with national banks. It is difficult to say why, under these consolidations, national bank charters were chosen rather than state charters, but it is conceivable that the difference between the banking laws of this Commonwealth and the national bank act, particularly with respect to taxation and the segregation of savings deposits, may have been contributory reasons. The taxation question, it is hoped, will receive consideration soon. The wisdom of requiring the savings deposits to be segregated will be more evident, I believe, as time goes on.

Credit unions are now in operation under laws of the Commonwealth which do not give the public the protection which, in my opinion, they have a right to expect. Supervision of these institutions has been and is very expensive, owing not only to the inadequacy of the present laws, but also because of the lack of financial experience among those in charge of many of the credit unions, as well as frequent changes in management. Careful consideration of all phases of this subject has made it quite apparent to me that the statutes regulating this business should be revised in many important respects. Changed conditions have, I believe, led the credit unions away from the original intent of the framers of the law. Although at the present time performing a meritorious service, they should, in my opinion, remain true to the purpose for which they were originally established. Unless there are radical changes in the laws governing them, it is my judgment that a situation is very likely to arise which will subject the savings of members to unnecessary hazard.

In order properly to safeguard this business and to insure its operation in the proper direction, I strongly recommend that consideration be given to corrective legislation. Therefore, I respectfully urge that a committee be appointed to study and recommend changes in the present laws. In this connection I particularly call attention to the unrestricted deposit privileges and the lack of regulations covering the loaning of funds. In view of the good work being done by these institutions, I believe that they are entitled to the benefit of remedial legislation.

In the last annual report mention was made of the inadequacy of General Laws, Chapter 169, and the speculative tendencies of those doing business under its provisions. These conditions, together with suggestions for remedial legislation, had been submitted to the Joint Special Committee appointed by the legislature to consider and recommend a re-arrangement and revision of the laws relating to "Deposits with Others than Banks." In consequence of this, the legislature enacted Chapter 473 of the Acts of 1923, amending General Laws, Chapter 169. This legislation would have remedied many of the existing conditions and would have placed this class of business on a comparatively firm basis, but just prior to the date of its taking effect, August 23, 1923, a petition calling for a referendum was filed and the act is now in abeyance pending action at the next state election.

I take pleasure in presenting herewith certain statistics concerning the various institutions under the supervision of this department which indicate their healthy condition; also, information showing the progress made in the liquidation of those institutions in the possession of the Commissioner.

Respectfully submitted,

JOSEPH C. ALLEN,  
*Commissioner of Banks.*
